Description

The nature trail is located in the national nature reserve Rejvív with the largest peat bog in Moravia, which was founded about 7,000 years ago. It leads along the marked trail from the Rejvív guest house to Large Moss Lake (area of 1 693 m²). It is about 3 km long and contains several stops with information boards about local specific fauna and flora and also about the of peat bogs. It is a pedestrian path, but you can also take a bike or a pram. In winter, the path's use can be limited. The nature trail is charged with a symbolic amount for the maintenance of the trail. Out of opening hours of the ticket office the trail is freely accessible.
