Description

Balneopark is a part of the Priessnitz Spa Limited. It is open to visitors. It is conceived as a "water garden", with a stream running through, with a built-up system of stops used for hydrotherapy and relaxation. Visitors can find pools and baths for foot baths and arm baths, Priessnitz's Acupressure Foot Bath, Priessnitz Bench or Priessnitz's Splash. For the bravest visitors there are water showers with cold spring water. The concept of the park follows the traditional hydrotherapy methods of Vincenc Priessnitz based on a combination of water, sun and movement. Balneopark is also a unique work of garden architecture and landscape creation. In addition to hydrotherapy facilities there are also water areas, waterfalls or terraces for sunbathing, relaxation and exercise.
