#### Description

The zoo was founded in 1946. As far as the number of animals kept (almost 2500) it is concerned as the largest zoo in Czechia. It specializes in African animals and it is famous for rhino breeding. It differs from other zoos mainly in the safari park, where visitors can watch free-moving animals - zebras, antelopes, giraffes, pelicans, etc. - on a 5 km long route. Rides are either guided tour safaribuses or Africa truck with guide or visitors own cars. It also offers a lion safari. The African and lion safari ride takes about 50 minutes, in safaribus about 20 minutes and in Africa truck about 50 minutes.
