Description

The castle offers guided tours of the facility, rich in legends and history - it lasts about an hour. During the tour, the tourist visits: the chapel and the castle underground (crypt, tunnels) in which there is also an exhibition of icons and a torture room, a chapel and a music room, a ballroom and a replica of the amber chamber (presumably it could have looked like this). Night tours and themed tours are organized. For schools and trips, traditional crafts workshops can be organized in the castle, cultivating the traditions of intangible culture:

ceramic or gingerbread decorations, decoupage, wickerwork, blacksmithing, archery or "motanka dolls". The castle offers the possibility of organizing a bonfire and integration meetings. Due to the revitalization of the building, the tour route may change.

In the garden there is a tent room (450m²) heated for organizing events (weddings, communions, company and occasional events, integrations, competitions, family meetings and others).
